ABOUT THE HOMES

Perumbavoor is an hour inland from Kochi and noticeably hotter for it. Without the sea breeze the city gets, a building here has to make its own air movement or the rooms simply do not cool down after dark.

Project information follows the current Citysky listing. Ask for the home-specific area statement and approved drawings before making a purchase decision.

VISUAL DIRECTION

Space, light and materials.

Both buildings are single-banked, so every apartment has windows on opposite walls and a through-draught.

VISUAL DIRECTION

A considered way to live.
