ABOUT THE HOMES

Taqva Road is a quiet lane off the main Vaduthala stretch, close enough to the market to walk and far enough back that the noise does not follow you home. The plot is narrow and deep, which rules out one large block and suggests three smaller ones instead.

Project information follows the current Citysky listing. Ask for the home-specific area statement and approved drawings before making a purchase decision.

VISUAL DIRECTION

Space, light and materials.

The planted gaps between the three buildings give every apartment light and cross-ventilation from two sides.

VISUAL DIRECTION

A considered way to live.

Kitchen with island and pendant lights

Living rooms face east. The timber ceiling carries through to the balcony so the room reads as one space.
